Meditation For Love and Service

NARRATOR

Dr. Lonnie C. Edwards, Surgeon and Ancestor

A transformative experience focused on self-healing and envisioning a future of empowerment and wellness. Scheduled immediately following the "Ancestral Healing: Past Practices and Future Possibilities" event, this session will guide participants in connecting deeply with their inner selves, fostering both personal and collective healing within the Black community.

It is a powerful tool that supports the achievement of the 17 Sustainable Development Goals (SDGs) by enhancing mental and physical well-being (SDG 3), fostering focus and emotional regulation in education (SDG 4), empowering marginalized groups (SDG 5), and promoting productivity and job satisfaction (SDG 8).
